System diagrams:

Below are two system diagrams, the first showing the sequence when the user wants to add a new entry to the database and the second showing the sequence when the user wants to retrieve an existing entry.

System Diagram 1 - Add new entry:

System Diagram 2 - Retrieve existing entry:

User
App
Encryption & Decryption
Database
1. Website/app name to get the password for
2. Find website/app name
3. Provide relevant entry
4. Decrypt the password
4. Output decrypted password to terminal
