Eisenhower Matrix:

	Urgent	Not Urgent
Important	Do: ● Master Password login and setup ● Core CRUD operations ● Interactive CLI	Schedule: ● Password strength checker ● Random password generator ● Warning the user if the given password is one of the 10,000 most common passwords
Not Important	Delegate: ● Password encryption & decryption ● File I/O mechanics ● Key derivation function	Delete: ● Custom color themes ● GUI ● Auto-filling the password when the user enters a site

System diagrams:

Below are two system diagrams, the first showing the sequence when the user wants to add a new entry to the database and the second showing the sequence when the user wants to retrieve an existing entry.

System Diagram 1 - Add new entry:

System Diagram 2 - Retrieve existing entry:
